[Livid Technology](#) is not affiliated with Microsoft.

What's New in the Union?

Union transforms your computer into a high quality mixing studio. Union transforms your computer into an all-in-one live VJ software mixing studio with hundreds of effects, live video inputs, and complete MIDI integration just to name a few features. Union's simply the easiest way to scratch, mix, control, create, perform, and record cutting edge visuals in real-time. Forget about expensive hardware rigs and confusing equipment - let Union expand the possibilities of your creativity. Union is built around the idea that video creation should be spontaneous and easily created in real-time. Livid's video engine allows for instant manipulation and control of multimedia content. Utilizing hundreds of effects, movie triggering, live feed manipulation, advanced modules, and countless other performance enhancing tools, Union turns the process of creating video into an immersive multimedia performance. Union reshapes the process of creating video content and saves you valuable time by allowing all effects processing and content placement to be done on the fly. Replacing the traditional time- consuming timeline and keyframe approach, which can take hours (if not days) to render, Union's effects and clip placement can be done in real-time and saved to disk. This approach opens the process of video production to a whole new world of experimentation and creativity. The intuitive and flexible interface provides a platform for ideas to come to life. Here are some key features of "Union": [High Resolution Recording](#) [Universal Binary](#) [New Effects](#) [MIDI Learn for Triggering](#) [User-sizeable Output Window](#) [Logo Overlays](#) [Improved File Browser](#) [Real-time Previews](#) Requirements: [Quick Time 6.5.2](#) or higher. Limitations: [Nag screen](#). [Demo version](#) disables some features. [II VJ Set](#) by Livid, a division of [II Productions](#), is a tiny promotion to be an arm of [II Productions](#) in the production of many parties and events in the Canadian capital. We produce and promote live music, fashion, and art to a variety of different audiences and markets. [II VJ Set](#) creates a collection of this site's expertise in all matters of VJ production: VJ Equipment, Live Video, Music, Photography, Creativity, and the Imaginative Market. From the information we have received, there is no way to create the live VJ Show while sitting at home. All Live Shows are produced in the Livid Studios. Once you are finished creating your show, the compressed.mov files are sent via the Livid server to the audience's location
