The 37 Best Websites to Learn Something New Forget overpriced schools, long days in a crowded classroom, and pitifully poor results. These websites and apps cover myriads of science, art, and technology topics. They will teach you practically anything, from making hummus to building apps in node. js. Topics 1 \tStack Overflow—Good for practically any programming question you have. They also have a great collection of open source projects for download, or you can simply use their code snippets. 2 \tCodeacademy—A wonderful resource to get up to speed on the basics of HTML, CSS, Python, Ruby, SQL, PHP, and JavaScript. Definitely worth checking out if you are interested in building your own websites or doing some programming on your own. 3 \tCoursera—Bringing top notch university courses online for free. Topics vary from neuroscience to marketing to teaching English as a second language. 4 \tSaylor—A great collection of free courses in many topics, including business, science, math, public speaking, and more. 5 \tMIT OpenCourseware—A vast number of courses taught at MIT are available for free. 6 \tKhan Academy—One of my favorites. This site has great tutorials covering many topics in math and computer science. Their videos are fun to watch and the lessons are self-paced. 7 \tLearnalanguagehome—Excellent resource to learn German or any other language for that matter (Chinese, French, Spanish…). Click on the "free" link on the top right hand side of the screen; then choose your language. Make sure you have a good dictionary handy! 8 \tCode.org—An excellent resource to learn how to code, especially if you are interested in Computer Science. 9 \tTeamTreehouse—A great collection of tutorials for web development, graphic design, and many other topics. They have great narrated videos that are easy to follow along with. You can also ask questions on their chat forum or Twitter page. 10 \tPluralsight—Excellent tutorial website for learning anything from Python to Graphic Design. 11 \tLearnVisualStudio—Visual Studio is a development tool used to create Windows apps. Here you will learn how to use the tool. This site also has tutorials for using other development tools such as Xamarin, Microsoft Azure, and more. 12 \tCodeTornado—A great collection of short to medium length lessons for learning Python. They have a mix of videos and text to help you learn the language effectively. 13 \tUdacity—Free online classes offered in conjunction with a number of universities.
