
The Mollerup Mark of Excellence is a proven method that characterize, document, and monitor the status of all environmental issues in an organization. What are the benefits? Per Mollerup lists 6 benefits to the Mark of Excellence. The most important ones are: Mark of Excellence is a method with strong principles and principles. This method has been tested and proved to be effective in many organizations over the years. This has been confirmed by the results, discussions with delegates and people working in this area. You can read more about the Mark of Excellence Method and how it works here: <http://www.mollerup.com/about-the-mark-of-excellence/> Also, it is claimed that the Mark of Excellence is a flexible tool that can be implemented in any organization or project you choose, because each holistic performance measure is based on easily understandable standards applied to real work (less than 10 pages). The Mark of Excellence can be used by anyone dealing with environmental issues. It is not only relevant for companies (or public institutions) but also for individuals. If you want to make an inventory or prioritize your environmental issues, or if you want to develop an action plan, you can use the Mark of Excellence - whether individually or in collaboration with others. If you want to know more about the Mark of Excellence and how it works together with Mollerup's other tools see: <http://www.mollerup.com/> <http://www.mollerup.com/mark-of-excellence/>

The Mollerup Mark of Excellence was developed by Per Mollerup, who has been working with environmental issues since the mid-1980s. He has worked with governments, cities, organizations and private companies in Denmark, Germany and Sweden. He is the author of the book 'Mark of Excellence' (in Danish). The Mollerup Mark of Excellence is based on Per Mollerups extensive knowledge about the environmental impact of organizations and its prevention. He understands that you cannot act without having knowledge about your work, products or services -and who they are directed to. Therefore, he has developed a Mark of Excellence that works as a tool to document and track the impact of your work on the environment. If you want to know more, you can read about Per Mollerup's work or how the Mark of Excellence Method works in this article: <http://www.mollerup.com/about-the-mark-of-excellence/>

No matter what you do in life - this is this solution of the future! This will be something that is needed for all companies, public or private institutions, students, teachers...
