Tone2 today announced the release of the VST-synthesizer brand "Serendipity 2:1", a sequel to the award-winning Tone2 VST-synthesizer "Serendipity". Now the OSC-oscillator have been replaced by the brand new "Alchemy Engine" and DSP-technology brings a completely new synth-emotion. New features in "Serendipity 2:1" consist of three oscillator-types, three wave-shapes and a 15-pole filter-type. "Serendipity 2:1" is the first Tone2 VST-synthesizer that lets you control the Oscillators via MIDI-Note-Numbers. The software is available as a free download. Tone2 - Serendipity 2:1. Here is the inital release of the plug-in: July 15, 2018 01:00am PST. Today we're happy to announce the immediate release of the Tone2-VST-Plugin "NKS" (New Komplete Kontrol). In NKS we developed a new synthesis-method based on the oscillator-modes. The oscillator-modes (in audio) refer to the oscillator-implementations in every model. The quality of the NKS-synthesis is comparable to the synthesizers with more power and complexity. "You'll not find anything like Gladiator.
