It is also based on the Nightly build of the latest Firefox release. It does not support 32-bit Firefox extensions. However, it does support extensions in the Internet Add-ons store, which uses the XPI format. For example, the browser is able to show the online bookmarks, search suggestions, etc. as well as the content created with the extensions of the Internet Add-ons store. In addition to the add-ons of the Internet store, you can also install extensions created by the Waterfox developers. You can read more about the extension support on the Readme.txt file. From the Manual : The following table gives a summary of the official support of this browser. You can find more information in the Readme.txt file and the help menus of the main interface.

Waterfox uses the xpi.me repository of Firefox add-ons, which is similar to Firefox's Add-ons Manager. Pages As the Affordable Care Act gets closer to being implemented, I have heard arguments that all health care reform will do is increase the cost of health insurance. A friend of mine, who is very knowledgeable about insurance, recently described the Affordable Care Act in a way that made perfect sense to me. "Yes, the Affordable Care Act will
