Manufacturer names In the 1970s the purchased a Philips Respironics brand machine and started using the Encore line of software to manage the sleep study. In the 1980s the Respironics brand became the brand name and the lines of software was renamed. In the early 2000s Respironics, Philips, and their subsidiaries were bought by Boston Scientific, and so the name Boston Scientific-Respironics came to replace the Philips-Respironics name. The Respironics machines are still being sold and there is no other manufacturer named "Philips Respironics". I'm using SQLite and the first time when I start my app it generates an empty database, I use the moveToFirst() method to make sure that I start with no records. It works fine! But when I reopen the app, my moveToFirst() returns null pointer exception. Any idea? Here's the code: public class List extends SQLiteOpenHelper { private static final String TABLE_NAME = "list"; private static final String COL_ID = BaseColumns._ID; private static final String COL_NAME = "name"; private static final String COL_PATH = "path"; public List(Context context) { super(context, DATABASE_NAME, null, DATABASE_VERSION); SQLiteDatabase db = getWritableDatabase(); } @Override public void onCreate(SQLiteDatabase db) { db.execSQL(COLUMNS); } @Override public void onUpgrade(SQLiteDatabase db, int oldVersion, int newVersion) { db.execSQL("DROP TABLE IF EXISTS " + TABLE_NAME); onCreate(db); } public C 2d92ce491b
