ModernMix Crack Mac is a simple tool for running Metro applications in a separate window on the desktop, on Windows 8. ModernMix offers you the ability to switch between the two different display modes for Metro apps (fullscreen and windowed). This feature can be easily controlled using the hotkey CTRL+W. You can also use this hotkey to toggle the Aero snap view. Windows 7 feature Aero Snap (...) Both full screen and windowed mode for Metro apps can be easily controlled using the hotkey CTRL+W. You can also use this hotkey to toggle the Aero snap view. You can choose between the two different display modes for Metro apps (fullscreen or windowed) when using the program. Simply press CTRL+W while pressing the hotkey for the mode you prefer (maximized / windowed). For those who don't like the fullscreen view, ModernMix lets you hide the title bar and close buttons for any Metro app. This option can be set using the hotkey CTRL+B (for the left button), or CTRL+T (for the right button). By pressing CTRL+M or CTRL+Z (Ctrl+Shift+M / Ctrl+Shift+Z) you can switch between the minimized / fullscreen mode for any Metro app, as well as maximise / windowed mode. The window control overlay in the top right corner lets you easily switch between display modes and define a hotkey to minimize the window immediately after you launch an app. Configure and save your choice for each and every Metro app you launch. In addition, the saved state can be easily modified. Since Metro apps can be launched from the taskbar, you might end up not using the Start Screen at all. Windows 8, Windows Phone 8, Windows RT and Windows RT 8 "modern" apps are new and unique for Windows. Those who used the desktop environment for years know how to start a new application on the desktop. Not so for those who got used to Metro from the Start Screen. Metro apps are shown in fullscreen mode, without any button, and only the display covers a screen. ModernMix is a small utility that enables you to start Metro apps in the windowed display mode and to interact with them like any other program. The advantages of running apps in fullscreen mode are numerous: - Each Metro app gets an overlay control in the top right corner of the window, which can be used to switch display mode or activate hotkeys - The "click" when clicking on the "x" close button is replaced by a touch gesture - You can pin apps in the taskbar and launch apps from there - You can easily switch between the fullscreen and windowed display mode with a hotkey - It remembers the last display mode you chose and can be easily set to the desired state - The location of the apps is saved for each app - It has a built-in task manager, so you can find out which Metro apps are running, even when they are suspended NOTE: A free trial version is available. Janus Screensaver is a modern screensaver for Windows 7, Windows 8 and Windows 10. It features the ability to put screensavers on a second display connected to the computer. Janus Screensaver adds a second screensaver to the Windows operating system. Its aim is to enhance your Windows experience. It allows you to use your computer in a dual way. You can decide to use a screensaver on your primary monitor or to use it on your secondary monitor. Janus Screensaver puts a screensaver on your second monitor and when it is done the screensaver will be removed. The transition will be done as smoothly as possible. When you are done with your task and want to go back to the screensaver, you have two choices: - Use the hotkey to disable the screensaver on your primary display and allow the screensaver to be activated on the secondary display. - Keep the system idle and switch automatically to your secondary display. As an alternative to the hotkey, you can use the Windows Start menu to easily switch between the two monitors. Janus Screensaver is a screen saver for Windows, it will not interact with other programs running on your system and its working is almost silent. This screen saver is created for those who use the computer in a dual way. They may want to use the computer in a dual way or have one primary monitor and want to use a second monitor to display information, such as web pages, images, or other content, without losing the connection with their primary monitor. If you are a fan of the Windows screensaver, then Janus Screensaver is definitely something you should try. Activate Windows

Windows 8 ModernMix is a tool that makes it easy to run Windows 8 Metro apps on the desktop by providing a convenient interface. ModernMix keeps the native windowed mode of Metro apps and allows you to run them in separate windows, independent from the Metro UI. For example, you can keep the full screen option of Metro apps and still use the desktop multi-tasking. Since each Metro app has its own window, you can pin them in the Start Screen. ModernMix uses the system-wide hotkey Ctrl+Alt+Del to go to the desktop. To switch between display modes (fullscreen / windowed), you can simply use the hotkey. Additionally, ModernMix has a configurable UI that includes shortcuts to easily launch all the Metro apps that you want to run. ModernMix requires Windows 8.1 and is not supported on Windows 8.
