What's New In Chord Cadenza?

Chord Cadenza is a utility designed to act as a MIDI sequencer and that enables you to come up with new audio samples by improvising chords while you are playing a song or MIDI file.

Twinkle Physics is a physics-based puzzle game that builds and destroys your world as you play. Currently there are two game modes, a free mode and a premium mode, with a total of 25 levels to play through. In the free mode, you can try playing through 1-5 levels and unlock multiple Artifacts, experience the game, and uncover unique clues to keep you on your toes. In the premium mode, there are no levels, making the game a lot harder and challenging. You can play through either 5 Classic Levels, or play through all 25 levels at the same time. You can also choose between playing through 1 Classic Level every day, or play through as many Classic Levels as you want. The game is completely visually designed using a procedural tile system and is completely free to play. All the game assets are released under Creative Commons, so you can download, distribute, and modify the game at will. Now is the time to start a new adventure as you deal with your own physics of your world's destruction, and search for the scattered clues to unravel the mystery behind why you are here.

Features:

- Unique Tile-based Graphics and Physics
- Customizable Game Rules
- Challenge Mode
- Free and Fun Gameplay
- Physics that Interact with the World
- 5 Levels in each of 2 Game Modes
- 25 Levels in the Full Play Mode
- Level Complete Blueprint Support
- Printable Missions
- Motion Control
- Unlockable Artifacts

Twinkle Physics has loads of unique, exciting and challenging physics gameplay that leaves you completely baffled as you complete each level. The art style has a new twist on classic puzzle games as you strive to complete your missions by destroying things as you progress. The art style and gameplay are perfect together to bring you a unique experience each time you play.

Unlockable Artifacts

When you complete your missions, you can reveal hidden Artifacts that have secret powerups and can be used in the future in order to unravel the mystery and complete your mission.

Motion Control

Hire a harpist, find clues, and jump over lily pads to complete your mission in this challenging puzzle game.
