System Requirements:

It's been a few months since we released Splatoon 2 with the Squid Research Lab Net Lab Data Analyzer available for public testing. In that time, we've heard many of you ask what you can do to optimize your game play performance and systems. In particular, we've received many questions about the CPU/RAM that we tested in the Net Lab Data Analyzer. So, in this article we would like to go over some basic system requirements, and how the components tested in our Net Lab Data Analyzer relate to your gaming experience. A quick refresher on what
