The extracorporeal life support group: meeting and planning for the ELSO Registry. The Extracorporeal Life Support Group (ELSO) is a patient advocacy group composed of more than 3,000 members in North America who support the use of extracorporeal membrane oxygenation (ECMO) for patients with respiratory or cardiac failure. One of the major goals of the ELSO registry is to generate information on patient outcomes. In order to obtain data from participating centers, a group of national ELSO board members is responsible for site visits and other activities, and for development of the registry. The ELSO website also provides educational information on the use of ECMO. The purpose of this paper is to describe the ELSO registry program and to discuss how the registry can be used to improve outcomes for patients receiving ECMO.

What's New In AutoCAD?

Keep drawing in place when you select a new editing mode. Now you can switch to another editing mode without having to redraw what's already in your drawing area. (video: 1:22 min.) Add a drawing history to almost any command. Copy or paste commands with ease when you use the new Edit ► Copy or Edit ► Paste commands. (video: 1:33 min.) Bring the entire drawing history into a single drawing. Copy all the drawing history to a drawing using the new Edit ► Copy command. (video: 1:31 min.) Edit markers more reliably. Markers are now stored in the drawing and visible in the 3D viewport. You can copy them and edit them together, and they are easily editable from the Markers panel. (video: 1:16 min.) Store a subset of the drawing history in an external file. Import/export, share, and store a subset of the drawing history in an external file. (video: 1:24 min.) Move your drawing history to an external file. The new Export ► Save to File command copies the drawing history to an external file that you can use for backup or sharing. (video: 1:14 min.) Merge drawing and annotations to a single file. Now you can merge all annotations and drawings from the past into a single file. (video: 1:26 min.) Edit marker fields more reliably. For quick editing, you can paste markers into a new text field without being prompted for location. (video: 1:29 min.) Find text and edit it faster. Text is now embedded in the drawing, so you can search and edit it in any drawing, even if it's different from the one where you find the text. (video: 1:32 min.) Import images more reliably. Now you can import images from other drawings or scans, even if they're not properly scaled. (video: 1:24 min.) AutoSnap better in complex drawings. Now AutoSnap works even better with complex drawings. (video: 1:12 min.) Run macros more reliably. AutoRun now records each time you run a macro and creates a database of your most frequently used macros. (video: 1:16 min.) Find a landmark more easily in complex drawings. Now you can get to
