Real RMD gives you an option to capture a single file or several files (you need to use the feature "Copy/Trimming" or "Capture/Trimming" for that). Installation : Extract the RMDDownloader.exe.dmg file and follow the installation wizard. RMDDownloader Setup: Extract the RMDDownloader.zip file and follow the installation wizard. Make sure you have checked the box "Enable the folder for applications" and click the Next button. Click Install For a better experience of the installation, please be patient with the process. It may take up to 15 minutes for the installation to complete. Use : In order to use the RMDDownloader, you must download the RMD_Plugin_Collection.zip file. Follow the installation wizard instructions to extract the RMD_Plugin_Collection.zip file. How to put a file in the folder of RMDDownloader in the next time : Drag & Drop the file in the RMDDownloader folder (not the folder of the RMDDownloader.exe). This will make the file as "temporary", and the file will be deleted when you restart the computer. The next time you want to use the file, move it back to the RMDDownloader folder
