If you have a content page that scrolls down and you want to have that page scroll back up, you can use JavaScript to scroll the body by a certain amount. This is particularly useful if the content on your page is a lot of text and you want to go back to the top to read the last paragraph. . How to auto scroll a web page Down or Up in Chrome or Firefox You can scroll up and down the page with the arrow keys. . You can also scroll up and down with the keyboard (up arrow key, down arrow key). If you use Chrome or Firefox, you can make pages that automatically scroll up and down. This can be helpful if you have long pages with lots of text that you want to read. Just enter the URL of the page into Google and press return. The result should be a URL like . Google page does not auto scroll in Chrome Most websites scroll down the page automatically. For example, if you're reading an article on a news site, as you scroll down the page, more content will appear. It scrolls automatically to the bottom of the page, which is what you want. . Auto Scroll Example In my opinion, there's one problem with Auto Scroll: it can be annoying sometimes. In this example, when you scroll down to the bottom of the page, the page automatically scrolls back up to the top. I don't want that! . Auto Scroll To stop the auto scroll, you need to disable it. If you don't know how to do that, you can simply . Auto Scroll If you have more problems with Auto Scroll, the easiest way to fix it is to disable it. First, if you don't know how to do it, you can simply . Auto Scroll Click on the button and then click on the "Disable" link. The next time you click "Go", it should show the list of pages you have open. If you are presented with a "Select page" screen, select "Disabled

pages" from the list and click OK. Then, click "Go". . The next time you click "Go", you will see the scrollbar. . The first time you use the extension, it will download the update to the Chrome Web Store. Click the extension icon in the Chrome toolbar. Click on the

1. simpleautoScroll - HTML5 autoscroll Description How to auto scroll a web page Down or Up in Chrome or Firefox How to Auto Scroll Down a Web Page If you want to auto scroll down a web page, use the autoScrollDown method. This method scrolls the page down by the specified number of pixels at set intervals. The autoScrollDown method takes the following parameters: - This parameter specifies the element you want to scroll the page down on. - This parameter specifies the time delay between scrolling. Select the selector (in HTML) that you want to scroll the page down on. . The parameter value is in milliseconds. Click the button to open the Options page. Type "auto scroll down," and the option should be highlighted in yellow. Click on the drop-down menu to the right and choose "Disabled." Also . Open up the options page for Simple Auto Scroll and you can. worked for us in Chrome, Safari and Internet Explorer, though not Firefox). Off for several release (from 40.0.0 I think but not certainty),. I met no automatic scrolling problem on Internet Explorer or Chrome. 7 days ago Scrolling in Chrome 1. simpleautoScroll - HTML5 autoscroll Description Scrolling in Chrome Scroll Bar In Chrome, you can change the default behavior for the browser's horizontal and vertical scroll bars. For example, you can make the horizontal scroll bar be indented on its left side so that users will only have to scroll through the page to see the entire contents. This can be useful for when you want to scroll to a specific part of the page without having to scroll through all the page first. In addition to the standard positioning (left, right, top, bottom), you can also change the positioning of the scroll bar (left, right, top, bottom). In the Chrome browser, open up the Options tab. Scroll to the bottom of the page, and type "scroll bar" in the search box. Select the option you want to modify. Scroll down to the element called "Vertical scroll bar." In this example, scroll down to the bottom of the page. Scroll down to the element called " 4bc0debe42
