1989. The lobby is shaped like a semicircle and the stairs have been designed in a meandering way and reach the top floor of the building. The description of the floor level of the building is high enough and the height of the building is 113 meters, thus the building is able to withstand earthquakes. Floor plans show us many functions of the building. All elevators are inside the building. It has three elevators and the height of

each elevator is up to 11 meters. The building has a computer room, a warehouse, executive office room and conference room on the lower floors. The building has a restaurant, a wine bar and an outdoor terrace for relaxation and has many shops in the first and second floors. All offices are medium-sized and well-lit. The area of the office space is 3e33713323
