## **BrightCar Car Maintenance Software X64**

Automobiles are one of our most-expensive investments. Because they are, though, we want to protect them by carefully monitoring and managing their use. For that, we use a number of tools, including BrightCar. BrightCar is a free, easy-to-use car care management application. With it, you can manage car care in a variety of ways. The free BrightCar application is easy to use and lets you manage a car's oil change, tune-ups, repairs, and more. You can even monitor important statistics like fuel efficiency, so you can see if your car's still performing well, and how well it performs in comparison to your goal. And because BrightCar's maintenance plans are based on the data and recommendations you provide, you'll be able to use their findings to shape your own maintenance schedules to fit what you need. The free version has only limited features, so if you'd like a more-capable application, you can pay for BrightCar's full version. For the money, you get a suite of tools that let you manage more than only vehicle care. Fees The maintenance plan's fee varies based on the number of vehicles you manage using the application. Vehicle Maintenance Plans Review BrightCar's maintenance plans range from the very popular (and dirt-cheap) Do-It-Yourself plan (\$5) to the Fully-Paid plan (\$300). The Do-It-Yourself plan will let you manage vehicles of any make, model, and year from your PC. The more expensive plans include vehicle make and model based advice on things like oil changes and repairs, timing-specific maintenance, and comprehensive care for high-end and luxury vehicles. BrightCar's maintenance plans are designed to work alongside an appropriate maintenance schedule. While BrightCar will find the maintenance plans with enough details for you to use, you'll have the option to add or adjust information. For instance, if you want to prevent a part failure, you can tweak the plan's details to include that. I recently ordered a can of special oil for my vehicle, and I'd like to apply it myself. BrightCar's Do-It-Yourself vehicle maintenance plan lets me do that. The plan includes more detail than the Quick & Easy 30-Second Service plan, and includes recommendations for a

## **BrightCar Car Maintenance Software Crack+ Full Version Free [Win/Mac] (Final 2022)**

Bought as part of Brightcar Software Review, 2nd February 2012 Product is good and well made Price is very good. I am very pleased with my purchase, very easy to use, easy install and gives me all the tools I require. This is a very good product and I have recommended it to friends. Enjoyed buying from your company, Peter Review, 5th March 2012 What's New: BrightCar Software for cars, trucks, and SUVs is now available for Macintosh computers. Display and Backup Capability Using our database of auto-related content, BrightCar can help users manage their vehicle and locate all the common car parts and accessories. Rental Reimbursements and Consequences BrightCar can help make sure motorists use rental car agencies only for legitimate trips, get mileage reimbursement for renting their own cars, and monitor rental car mileage and total mileage to determine if a driver is being reimbursed for the whole trip or only part of it. Vehicle Leasing BrightCar can help ensure motorists are leasing a vehicle only for the period of time they need it. So, when it's time to lease or return their vehicle, users can have the information they need readily available. Saved Car and Report Features BrightCar can help motorists keep track of whether their vehicle is being serviced before they buy or lease it, helping them be sure of its condition. Mobile App Support BrightCar can help motorists stay organized and informed on the go! Thanks to the Apple iOS 7, users can use the BrightCar app for iPhone, iPod touch, and iPad, and can even back up and retrieve their stored data in case they need to make changes. New Maintenance Schedules New maintenance schedules for common and rare conditions help users know how often they should be serviced for their vehicles. This software was recommended to me by others and I am delighted to have found it. Its easy to navigate and the screens are clean and well arranged. I find it great for

## BrightCar Car Maintenance Software Crack + Free Download [Mac/Win]

Smart Movers and Relocations. SmartMovers.com may be able to help you with all your moving needs: moving supplies, trucks and rental equipment, a moving planner, packing, labor, etc. We also offer free estimates on moving costs. Auto Repair Service Manager. Automotive Repair Service Manager (ARSM) is a software application designed to help local dealers manage shop billing and repair data. The system is developed as a Microsoft.NET application built on SQL Server 2000 and Windows technologies, and is compatible with SQL Server 7.0 and later. Service data can be imported into the system from excel files, database queries, or a forms application. Posting and logging tools for communication with customers are included in the application and may be customized to meet individual dealership needs. A limited administrative module is also provided for system configuration, insurance management, and overall system management. ARSM can be used as an effective customer communication tool because it can post and log outbound and inbound communication with customers. The application also provides a number of features for data reporting, including: - Standard reports for monthly/annual/weekly/day reports of purchases by technician - Templates for daily reports, weekly reports, monthly reports, and year end reports - Store credits to customer - Invoice reports - Work order retrieval - Customer list - Billable and nonbillable charges for each work order - Reports for paid and unpaid bills - Reports for unpaid amounts - Reports for the time spent - Reports for the cars and trucks repaired - Report by dates - Report by gross sales or by vehicle - Summary reports for billing periods - Total number of transactions - Sales of parts - Sales of service work - Customer referral sources - Email reports of bookings and phone calls - Job tracking reports - Excel-based data importing - Data exporting to excel - Data editing - Data copying/pasting - Data sorting and formatting - Form labels and validation of input fields - An email component that allows you to track which employees you need to send emails - A scheduler component to plan your day - A help database with extensive documentation - A reporting interface that allows reports to be created that then can be viewed or exported - Many more features! More
