
Native Instruments B4 II High Quality Keygen

November 12, 2005 - I'm a longtime B4 owner and just received the B4 II update today. To install it, it asks for a serial number, like all NI products. This is normal, and I was not even sure that it was necessary. However, when I updated the file it couldn't read the data because the data I wanted to update was locked. It said that my Windows operating system cannot access this data, so I had to reset it so that I could unlock it again. As a precaution, I tried the B4 II with an old Windows operating system I had before, and it worked.
