Easy Photo Movie Maker is an easy and simple way to make your own funny photo movies and cartoon animations with just a few clicks. You can record your own video while taking a picture, add different transition effects, frames and text, then save the photo movie in any of the popular formats, such as MP4, 3GP, JPG, JFIF and GIF. And you can even trim the video size to fit your needs. Easy Photo Movie Maker is the most ideal video editing software for making video slide shows. Easy Photo Movie Maker Features: 1. Easy to use: with a simple and intuitive user interface, it is easy to use and easy to learn. 2. More rich effects: there are more than 80 transition effects, including 10 different transition styles and 10 frames, which makes the video different from one to another. 3. High quality: it supports high definition 4:3 and 16:9 formats, and output videos can be recorded in both MOV and MP4 formats. 4. No watermark: the application will not leave any watermarks in the output videos. 5. Video capture support: it can capture videos from either a webcam or from other video sources. 6. Over 50 filter effects: you can apply different filter effects to the captured videos to make them more interesting. 7. Video recording length support: you can change the length of the recorded video as you wish. 8. CD ripping: you can rip audio from videos to CD so that you can create and burn your own CD and play the video at any time and place. 9. Support for adding text: you can add text to videos as subtitles and titles, which makes it easier for you to make slide shows. 10. One-click operation: you can finish the whole video processing and output in one click. 11. Various video sizes: you can choose different video sizes from 576p to 1280p, which is suitable for different devices. 12. Easy to download: you can easily download the app as a standalone program. 13. Support for multiple devices: you can download the app and use it on Mac, Windows and mobile devices, including iPad and Android devices. Time-
