[Download](#)

This is a video editor made for creative people who want to express themselves through visual media in a fun and creative way. Features

FEATURES ? ADD PLAYLIST Quickly add any video to a playlist. If a video already has a playlist, it will go in it. You can add a video to multiple playlists if you want.

? TRACK BACKGROUNDS Watching the video and seeing the transitions with a black background is so boring, right? With this option, you can easily add any background to the video, like a picture, some text or any image.

? TRACK FRAMES You can use this feature to add a fade-in, fade-out, speed or pause at any frame of the video.

? ADD EXTRAS You can now add extras to the video, like the first frame, the last frame, the sound and much more.

? TRACK LIGHTNING Add any text with this feature. You can put it at any place in the video, and it will appear automatically at the beginning and at the end.

? ROTATE VIDEO This is the most amazing feature. With this, you can rotate the video, any way you want.

? SELECTION FREE With this, you can add text, transitions or even split the video into two different parts.

? TRACK LIGHTS It's so boring seeing the same background in the video. With this option, you can add any lights at any position of the video.

? TRANSITION FREE With this option, you can add any

transition to the video, even though the clip was not cut. ?
TRANSPARENT With this option, you can add any text at any position of the video and it will be completely transparent. ?
TRANSITION SLIDES With this option, you can add any transition between clips. ?
CUT SEQUENCE With this option, you can add more clips into the video, to create more than one video. ?
SPLIT SEQUENCE With this option, you can create a split of the video. It will be possible to go back in the video and even see the split. ?
MOVE SEQUENCE It's so boring watching the same text all the time. With this option, you can move the text anytime in the video. ?
SPEED LESS It will be possible to move the video slower than the speed of the music. ?

This free background pack includes 9 layered PSD files. Each

background design is very useful, beautiful and professional. What we need to create these backgrounds : First open this free PSD. Then take a solid colour we like and paste it in the top layer. Set the Gradient Type to Solid and change the Solid colour to any colour you like. Then click OK. Copy the layer with the colour to your clipboard. Now take another layer and paste it again on the new layer. Set the Gradient Type to Solid and change the Solid colour to the Solid colour of the layer above. Copy the layer with the Solid colour to your clipboard. Now move your cursor to the top layer again and press CMD + Enter. Your cursor is now on your new layer and you will be able to fill the selection. We have 2 options on this. Select the Feather if you like the soft look or choose Hard Edge if you want the sturdier look. With the Hard Edge selected, move the right mouse key and click on the brush you want to use. You can use a solid brush or a gradient.
