The number of geriatric patients visiting hospitals for anesthesia has been increasing worldwide in recent years. The anesthesia and perioperative care for elderly patients have been improved remarkably. In Japan, the approval of long-acting sedative, such as lorazepam and long-acting benzodiazepine, has started, especially in neurologic disorders. The first approval of non-opioid analgesic in a non-invasive urologic procedure in 2005 has recently been approved in Japan. As a consequence, the number of elderly patients undergoing these procedures has increased dramatically. To establish the anesthesia for geriatric patients, several reports have suggested methods that will improve the safety, safety and efficacy of anesthesia in geriatric patients. The future of anesthesia for geriatric patients will be to avoid complications during and after anesthesia.Toronto, ON (July 19, 2012) – This year marks the 25th anniversary of the Greatest Outdoor Show on Earth® (GOOSE®) Canada as the Canadian equestrian industry looks back on over a decade of world class shows, events and tourism for the outdoor sector. "GOOSE® Canada is pleased to continue working with our partners in the equestrian industry to celebrate this historic anniversary," says Executive Director, Brooke Davies. "We are proud to support this year's activities, as GOOSE® Canada celebrates with a focus on ensuring that future generations have the opportunity to experience all that GOOSE® Canada

What's New in the?
