GCViewer Crack + License Keygen Free For Windows

Through its basic design, GCViewer For Windows 10 Crack makes the whole process of displaying verbose GC logs as easy as possible, with this being the main purpose of the application. The application will work with all type of file generated by virtual machines containing information regarding the Gc process, such as: - JDK 1.5 / 1.6 - JDK 1.7 - JDK 1.8 - JDK 9 - JDK 10 - JDK 11 - Oracle JVMs For this purpose, GCViewer has been built in a modular way, with a wide range of functionality and options allowing you to adjust and customize the utility to your needs. GCViewer Features: - Display the information in the format of a graph and a table - Extensive controls to customize the presentation of information - Reading of verbose GC logs - Wide range of commands for export and saving of information GCViewer is a lightweight and user-friendly piece of software whose main purpose is to provide you with the means of displaying a visual representation of the verbose GC data, outputted by various virtual machines. Benefits in running a portable utility Following the download process, you can launch the application and start working with it immediately, on condition that you have Java installed on your system. Because installation is not a requirement, you can use GCViewer on the go, storing it on USB sticks or other memory devices and carrying it with you wherever you want. Since the program does not experience an installation process, GCViewer does not create additional registry entries on your system, sparing you from having to worry about any leftover traces when removing it through simple deletion. Functions and results Despite functioning in command line, GCViewer also offers you a basic yet intuitive graphical user interface, and allowing you to load the file you wish to work with, supporting GC, TXT and LOG files produced by Sun / Oracle, HP, BEA Java or IBM virtual machines. The information comprised by the targeted file is rendered by means of a graph, enabling you to view several details organized in three tabs: 'Summary', 'Memory' and 'Pause', thus providing you with insight into its contents. The 'Summary' section displays the 'Footprint' and the 'Freed Memory', as well as the 'Total Time' in hours, minutes and seconds, the 'Acc Pauses', 'Throughput' in percentage, the 'Number of Full GC Pa
