## Faswin Crack+ Serial Key [Win/Mac] [Latest]

=====  
Description: Faswin Crack is a shareware software that helps the users manage their assets. You can add and list all assets in a Registry, classify assets and create reports. Business users will use FASWIN to enter assets in a database. The software provides the following features: \* Add assets, duplicate existing records, remove unwanted records \* View and edit assets \* Search assets \* Add or remove a company \* List companies \* List assets by company \* List assets by category \* List assets by cost centre \* List assets by group \* List assets by value \* List assets by description \* List assets by tax code \* Create or edit a company profile \* Create or edit a department profile \* Create or edit a cost centre profile \* Create or edit a group profile \* Export a report in.pdf format \* Print a report in.pdf format \* Upload a report in.pdf format \* Set a default value for each asset and record \* Calculate the depreciation and write-off for a given asset \* Calculate and write-off residual value for a given asset Create PDF file easily You can use a built-in report previewer in order to view any report and export a PDF file for easy portability. The report can be filtered and displayed in the same format. Export report by company or by asset You can set a default value for each asset and record or assign a value to each asset. This value can be used as a depreciation method or used to calculate a write-off. Calculate depreciation You can find and calculate depreciation by defining the period of time in which you want to calculate the depreciation. The software will show you the residual value for each asset, which is calculated using the given value, the current price of the asset and the depreciation percentage. Create a company profile and record details about the company You can add information on your company, tax rate and set a default residual value for a company. You can create all sort of reports and use features for managing assets. Edit the registry file, company profile and other assets You can export a registry file, company profile and other assets for easy storage. You can send reports to an external program, create a backup copy or use report management features to view the reports. Create reports for group or asset You can create all sort of reports for group or asset. You can export a report in.pdf format and create a backup. Faswin is a Shareware software that allows you to register your company

## Faswin [Updated]
