Automatically shut down the computer. 8. If the computer is inactive for a long period of time, the system will automatically turn off the computer. 9.

Total Power Control 1.0.2 by iXpower Total Power Control is a simple and efficient tool that can monitor and control your battery, battery life, screen, and system temperature. It provides a simple way to customize a power scheme according to your needs. It supports three different kinds of power schemes: • "Idle" power scheme (when the CPU is idle) • "Work" power scheme (when the CPU is intensive) • "Bidirectional" power scheme (both the "Idle" and "Work" power schemes) You can choose any or all three power schemes, and also set the power scheme to be turned on or off by pressing hot keys. It is very easy to use: just select the power schemes you want, choose the hot keys you want to use, and then set the time before which the hot keys should be pressed. It supports multiple power schemes and hot keys: • Power schemes include: • "Idle" power scheme • "Work" power scheme • "Bidirectional" power scheme • Hot keys include: • "Idle" hot key (when the CPU is idle) • "Work" hot key (when the CPU is intensive) • "Bidirectional" hot key (when the CPU is idle or intensive) The best of all is that there is no need to close and reopen the program each time you want to change the power scheme. You can make a shortcut key on your desktop to automatically switch to the most appropriate power scheme. Total Power Control also comes with a power statistics gadget that will show you the remaining battery life and how much power you're using every second. It supports a wake-up timer that can be used to display the gadget when you turn on your laptop and switch the power scheme to "Idle" power scheme. It also has a scheduler that can be used to perform certain tasks when you switch the power scheme to "Idle" power scheme. Total Power Control is very

System Requirements:

Windows 7, 8, 8.1 or 10 (64-bit only). 1 GHz processor or equivalent 2 GB RAM (4 GB recommended) 3 GB available hard disk space
