[Download](#)

Small Windows client for fast and simple chat with friends. Create your own avatar, add custom emoticons and get a free Awesome avatar and looks like this. The interface is minimalist and very easy to understand. The program lets you import the pictures from your system to upload a picture on your Facebook profile. To do so, just double-click on the picture you want to add and choose "Facebook upload". Features : - Support for multiple accounts - Buddy List - User actions - Bots - Bookmarking - Chat History - Group Chat List - Configurable setting (sound, splash screen,..) - A lot of new features will be added in the future. You can also call Google Voice or Facebook to chat if you do not want to use the chat windows in the program. If you do not have a Google Voice number yet, you can now download the free app Google Voice USA from Google Playstore. It works like a normal Android phone app, but doesn't create unnecessary background processes. Google Voice USA is a convenient free app from Google to be your voice number. You can make and receive phone calls from your computer (via a USB phone adapter), as well as send and receive text messages. Also, the call will be routed through Google and your calls are free. How does Google Voice work? Google Voice provides an easy way to make and receive calls via the Internet. Rather than downloading, installing, and configuring a bunch of programs and paying a monthly fee, just visit Google Voice. If you are using Google Voice from a Windows computer, it looks like a regular Android app, and you can keep using your PC for other purposes while you are making and receiving phone calls. You can make and receive Google Voice calls from a computer running Windows 10, Windows 8, Windows 7, Windows Vista, or Windows XP. However, Windows 8.1, Windows 7, and Windows Vista users can only use Google Voice without downloading any extra apps. In order to use Google Voice for Windows, you need to have a Google Voice number and have it connected to your Google account. If you have a Google Voice number already, you can skip this step and continue to the setup section. If you don't have a Google Voice number, you can visit Google Voice and create one for free. You can also use Google Voice to receive and make calls on your Android device. With Google Voice for Android, you
