Keeping layers organized After you create a new layer, you can add other layers on top of it. You can also rename layers so that you can identify them with descriptive words. This makes it easier to find specific layers in the layered files. In the Layers panel, you can also hide a layer (and all the pixels on it) by clicking the eye icon in the

layer thumbnail. In Figure 7-7, notice that the background layer has been hidden, which makes it easier to see the layer underneath.

The user interface is similar to that of Adobe Photoshop. You can open multiple files and apply various effects to images, convert them to other formats, crop images and so on. The files can be saved in JPEG, TIFF, BMP, PNG and

GIF formats and organized into a folder or used as a template. The app uses a vector graphics format for all the graphics so it may be hard to use without a graphics editing tool like Photoshop. It also does not support layers. You may be able to edit layers separately in Photoshop. This guide will help you edit images in Photoshop Elements 12, 13 or 14. You will learn how to: Edit images: Apply effects: Create multiple layers and edit them independently: There are many add-ons to Photoshop Elements that offer more features. These add-ons may work with the

app but may cause problems so it is best to try a trial version before buying the paid version. Please refer to the software list to determine if your issue is fixed in the latest version or an older version.

What's New In?

Jason Wu: Nine and counting — the story of the day. Welcome to the fashion week highlights from the world's most buzzed-about

designer, Jason Wu. The label's time at New York Fashion Week just might be the most anticipated collection to be unveiled so far in the upcoming spring-summer season. After a string of early season showings, last night's event marked the second and final day of Wu's presentation, hosted in the Grand Hall at the American Museum of Natural History and witnessed by patrons such as fashion industry power couple Victoria Beckham and Donald J. Drumpf. The collection marks the first time Wu's presentation has been held at the museum. "When I

was a kid, I was an early waker,” Wu told WWD’s Fashion Fix contributor Donato, standing by a giant skeleton at the event’s entrance. “I would get up at five-something and ride the subway to work at six. I’m really inspired by the museum’s collections. We want to reflect the idea of the museum, and this is the theme of this collection.” Representatives for Wu’s label also confirmed that the presentation will be streamed live for the brand’s social channels, beginning at 7 p.m. ET. It’s interesting to note that Wu’s label is comprised of a collection of

French fabrics, while the rest of his work is defined more by the American influence. However, he emphasizes that “I’ve not forgotten about my roots” and that American fabrics have been used as inspiration for specific pieces within his collection. The collection is meant to be “about happiness,” Wu explained. “The collection is very happy. It’s about celebrating life. It’s about celebrating women and celebrating their beauty. It’s about celebrating our relationships with the world.” Wu added, “I wanted to demonstrate to people that we’re

all just one big rock of discovery.”
Stay tuned for more highlights
from Wu’s collection and the rest
of the week’s events, including
today’s showings and the
remainder of the week’s events.
