Комментарий от LYKYL The use of sex offenders as study subjects has gained in popularity in the last 20 years because of a significant increase in the number of studies which document a linear relationship between the quantity of sexual experience and sexual compulsive behaviors. . These studies use any previous history of sexual behavior and current practices toward children as a proxy for pedophilic propensity. . They seek to increase the quantity of sexual experience with the aid of a trained therapist, with the goal of eventually fostering sexual compulsivity for increased sexual pleasure. . Sexual compulsivity may play a role in the treatment process for sexual offenders. . Sexual compulsivity has been defined as a characteristic of "compulsive sexual behavior" and is defined by a continued pursuit of sexual stimulation despite negative outcomes. . Sexual compulsivity is characterized by a loss of control over sexual urges and fantasy. . A large percentage of sexual offenders suffer from sexual compulsivity. "Sexual compulsivity" is a diagnostic term used in the in order to describe sexual behaviors that are preoccupying to the individual. It may be characterized by recurrent autoerotic masturbation, ranging from an occasional masturbation during the day to multiple masturbation nightly, the sexual pursuit of, and. This can be done on a vast array of materials and in many forms. Such activities include pornography, novelty and infant erotica, sexual fantasy involving the child, or children as sexual objects; the development of special interests and memorabilia; and self-abuse, such as amateur or intentional autoerotic asphyxiation and . This may vary in frequency, intensity, and duration, and it is often a . . . Patients may employ to maintain their sexual interests or even increase them. . Sexual compulsivity is further characterized by an increased risk of. . The fear of being caught in the act may also be a primary motive for engaging in . . When the worry of being caught drives these individuals to be lewd, their own behavior can be inadvertent and inappropriate, including sexual assaults of children . . The term comes from the which are characterized by a lack of remorse about their actions. . . An increased risk for because of sexual compulsivity has been linked to ,. . . , and . . Furthermore, a significant correlation exists between the
