What's new in Fifa 22:

- **PRIMARY:**Improved defensive AI using Player Traits
- **DEFENDER:**New defensive Player Traits that inspire the ball-near player to be more physical and determined to deny the opposition opportunities. For instance, they will perform strong challenges when off the ball, and if successful, they'll win back the ball a higher percentage of the time compared to when we didn't add players to this set.
- **DEFENDER:**Shallow passing players now have more awareness of the positioning of their teammates. They will look at the ball and the ball is more likely to kick-up, while passes will be a little further.
- **AIM:**Attacking teammates have better awareness of the advanced movements of the defenders. The forward will look at the pattern of play more and will be aware of the go-forward longer.
- **CTM:**The crowd's behaviour has been improved to better represent supporters at a club you play at. During a tricky moment or a successful attack, fans at your club will convey to you that you're on a roll, fans will boo and insult opposing players.
- **PLAYER INFRASTRUCTURE:**Improved research methods for clubs to improve player development quicker, added club milestones and more detailed statistics for an accurate representation of each club.
- **A.I., GENERAL:**Improvements to the system that governs the actions of the game. This includes motion capture, pitch awareness and player awareness.
- **INTERPRETATION:**New, improved interpretation of the action. You can now see the consequences of a tackle before the punishment is applied.
- **RESTICTION:**Restraints have been adjusted to better reflect the laws of soccer. Players will no longer be able to lunge into challenging fouls.
- **TRENDS:**New goal-line technology in place of table-top digital boards to map players' movements, see play-intents through walls and also win tackles high up the pitch.
- **PITCH FEATURES:**Improvements to the real-time technology used to map the field to ensure the pitch awareness gives you the most accurate and realistic experience.
- **PITCH:**New markers on the pitch to more clearly define where players need to position themselves at.
