ROBUX are the anti-currency used on Roblox, and are not the same as platinum coins. You get Robux just for playing, not from spending real money. As in real-life, Robux are super useful for players because they are the primary currency used in-game and for building. You can use Robux to build houses, purchase upgrades, purchase items, and buy in-game services. You can use Robux for free, or spend them as you wish. NOTE: Robux are harder to get than they used to be, but if you're having trouble, keep trying. During beta, players could free robux to play any free or paid game, purchase upgrades, and they could even earn more robux by playing new game or playing old games. Since January 31st, 2019, free robux are limited to premium games only. To unlock free robux, you must have the highest school tier on your account. To get free robux, you must be playing robux ads, and you must be at least level 15. Robux ads are free-play: any eligible game you play will cause the robux ads to appear. Robux ads are a lot of fun to play, but they do take a lot of robux. If you're a high school tier player and you don't want to spend real money on robux, don't worry. Even free robux ads take time. It may take a while to get a free robux. When you finally get a free robux, it's nice, but not super exciting. If you have very little time and you need more robux, you can always spend real money to get more robux. You could even trade in your robux in exchange for real money. But then you're spending real money to play, which is usually not fun. Robux are usually only 1 – 2 per hour, but I've seen players get up to 5 per hour. Then you have a choice: spend real money to get more robux, or play without them. Free robux ads are a huge source of income for Roblox. And with free robux ads, you can make some serious money! Realistically
