The Intern Movie Download Worldfree4u

the movie starts out with a young actress who is doing a musical number in a movie. the girl is one of those teen musicals in which all the songs are written. when i think of musicals i am reminded of the girls i went to high school with, all of whom played piano or guitar or did some singing for the high school musical. they all went away to college and they did not return. we had a couple, however, who played in one of the original broadway productions of grease, and so from time to time we would go to see them. they were pretty good. in any case, whatever was happening in the movie, none of it really mattered because the song was just too much. so, we are supposed to care about the girl in this movie, but she comes off as a bit of a do-gooder, which might be a fair criticism. she tries to make things better for everyone, which is fine but is soon driven a bit crazy because everyone around her has their own band of do-gooders. as she goes around making new friends, she falls in with a group of people who are just trying to get by, which is fine in its way, but not in her. it looks like she is trying to save the world, but i think she would have to be a bit more cynical to pull it off. unfortunately, she is not cynical enough for me to ever take the lead character seriously, which is a shame. some of the plot devices are a bit over the top. there is a bit in which the girl takes a fortune cookie out of the freezer for the first time and reads that the right person for her is someone she is not attracted to. "not attracted to me? then why did i cry myself to sleep every night for weeks?" she asks. "don't worry, we'll find you someone you love." okay, that's a bit much. 5ec8ef588b
