# Gemini Traits

You never know which of Gemini's two personas you will encounter because they are both expressive and quick-witted. They have a tendency to quickly become serious, reflective, and restless but are social, conversational, and up for some fun. They are thrilled by the world itself, incredibly curious, and perpetually worried that they won't have enough time to see everything they want to.

Gemini is connected to all elements of the mind since it is a part of the Air element, along with Libra and Aquarius. Mercury, the planet that stands for writing, communication, and mobility, rules over this area. People with this Sun sign frequently feel as if their other half is missing, thus they are constantly looking for new companions, mentors, colleagues, and conversation partners. Read on to know more traits about the **gemini love horoscope for singles 2021**.

Geminis are playful and always up for a mental challenge. They first experience love through verbal interaction with their partner and value that as highly as they do physical touch. Obstacles all seem to disappear when these two come together. A Gemini could spend a lot of time with various lovers before they find the right one who can match their intelligence and energy. Geminis are inquisitive and always ready to flirt.

Geminis excel as writers, journalists, and artists because of their flexibility and open-mindedness. They also excel in trades, driving, and team sports due to their skills and versatility. This sign was born with the desire to explore everything the world has to offer and is adaptable, inquisitive, and fun-loving. As a result, they have an inspirational and never boring character.
